

# ELUCC Meeting

## JULY 7th, 2016

PO Box 582, Lebanon, Oregon 97355

The meeting was called to order by President Kevin Hamilton. There were no minutes from June's Meeting! Thanks Frank.

**Treasurer's Report:**    \$3,242.00, we paid for the Tee Sweat Shirts so we are good there now. We do need to pay for the sun glasses Joyce got for us to give out at the upcoming events.

**Damage Report:**    All Damage reports should be submitted to the DIRT Program Form. It appears we are having problems with the new locating company from Century Link. Instead of (In many but not all cases) coming out with-in the 48 hrs. they send a E-Mail, Fax, or some kind of reply to the request stating that they and the contractor have made arrangements for the locates to be done at a different agreed upon time. This is or hasn't been true. It is my understanding after talking with the company a few times that its an automatic message that gets sent out when they are behind. I have received this message more times than not and yet have never agreed on that or even have talked with anybody about that. If this isn't took care of something BAD as in damages is bound to happen.

**Standards Report:**    None at this time! Its not our nature to have any Standards.

**State Council Report:**    No Report this month on the State meeting or the new event trailer. Maybe next month.

**P & E Report:**    Linn County Fair July 13<sup>th</sup> – 16<sup>th</sup>, 2016. The parking and vendor passes will be at Ferguson Water work's Store on HWY 99 just south of Linn Benton C.C. Please make sure after you shift (Week days) U return them for the next day's group as we are limited to how many we have. We are Booth 12. We don't have a lot of give a ways so please leave some for the next group.

**Old Business:**    NONE at this time.

**New Business:**    Kevin S. talked with us about the growing number of Growing Operations coming up around the state. Because of all the electricity needed to run them its putting a whole new light (No pun intended) on how the power companies are installing and hooking up power to these places. It's not a

standard hook-up like for a regular business or home. A lot of these are done from a resident or farm like place.

**Projects:**

Please E-mail any new projects to Frank at [ffrenzel@ci.lebanon.or.us](mailto:ffrenzel@ci.lebanon.or.us). The Sheep Creek Project will start the Tuesday after the Bi-Mart Country Music Festival in Brownsville. (The project isn't in Brownsville it on Hwy 20 just East of what use to be the Mountain House.) Its planned to take 2 months. The City of Lebanon started the pipe laying for the new Water Treatment plant on River Road on Friday July 8<sup>th</sup>. This will take a few months and then we are anticipating more projects related to the plant in the near future in that area. Hwy 34 and Seven Mile Lane is in the works to get a traffic Light at that intersection sometime before Fall of this year.

**Next Meeting:**

Will be at the Wing Ming Restaurant at 1170 Main St, Lebanon. This is at the Y just across the tracks in the little strip mall by James Gang Pizza. Thursday Aug. 4<sup>th</sup>, 2016.

Frank Frenzel  
Secretary/Treasurer ELUCC  
City of Lebanon

**ATTEDENCE**

**Frank Frenzel**  
**Larry Nelsen**
